

ADVERTISING PROMOTION

Use the initial of your name or create a word for this creative project.

Start with two pieces of card that fit your frame. On one piece arrange your photos in a collage, with the other sheet use a craft knife to cut out your letter. Place the photo collage behind the letter and put in your frame and hang on the wall, done!

Keychains are a great way to keep favourite family photos with you wherever you go.

STYLIST FOR YOUR HOME AND GARDEN MAGAZINE

Looking for creative ways to display your favourite photos? If it's a statement piece for your wall or something small enough to keep in your pocket, these four ideas have got you covered.

Use some patterned craft paper as the background of your frame, stick your photo to the paper with washi tape and pop inside your frame.

An on-trend way to display photos in your home are these shadow boxes. Have photos printed out large enough to sit in side the shadow box and cut to fit. Glue into the shadowbox and hang on the wall with 3M velcro strips.

All photos from Warehouse Stationery can be easily ordered and picked up using the Pricer app, simply download it from your app store today to get printing!
