# CREATE YOUR OWN PIXEL ART

## YOU WILL NEED:

- ✓ 30"x30" Canvas
- ✓ HB Pencil
- ✓ Ruler
- ✓ Masking Tape
- ✓ Gesso
- ✓ Acrylic Paint
- ✓ Varnish

## INSTRUCTIONS

1. Lightly draw or trace an image on the canvas with an HB Pencil.
2. Rule a 3cm x 3cm grid in the background (behind shark & fish).
3. Using the ruler, create rectangular configurations on the curved lines & erase remaining lines. This will create the pixelated look.
4. If required, use masking tape to section out rectangle areas ready to paint in black.
5. Fill in other areas of the shark & fish to desired colours.

### WATER

- Use darkest shade of blue for the deeper part of the water & row by row add more white to the blue to indicate the water getting shallower.
- Be sure to leave a slight white gap between squares to help keep the box shapes visible.

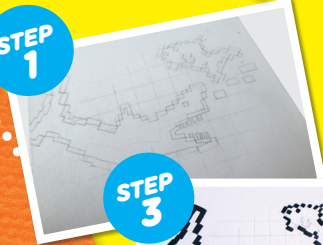

### SKY

- Use darkest shade of yellow for where the horizon sits above the water & row by row.
- Add more white to indicate the sky getting lighter.

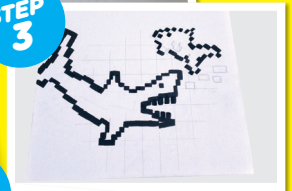

### FINAL

- Once painting is completely dry, touch up where required then varnish as desired.
