

## INSTANT PHOTOS ARE BACK, PRINT DIRECT FROM YOUR SMART DEVICE

Printing your photos has never been more convenient with the SELPHY CP1200. It is the perfect solution for fast prints with superb quality and ultra portability. It makes sure you look your best with the ability to adjust brightness, smoothness of skin and enhance colour. What's more, its AirPrint™ enabled, making wireless printing from your iPhone, iPad and iPod touch almost effortless. The inbuilt Wi-Fi connectivity allows you to directly connect your smart device or wireless camera without the need of a network.

### Key Features

- Photo lab quality prints: delivered in high speeds of approx 47 seconds.
- **AirPrint™ compatible:** Print easily from your iOS device.
- Direct Wi-Fi photo printing: With inbuilt Wi-Fi, printing wirelessly from compatible cameras, mobile phones or computers using has never been easier. PictBridge, memory cards or a USB is also compatible.
- Portability: The optional battery pack lets you print any where at any time (NB-CP2LH), the new battery pack lasting longer than its predecessor.
- More creative: Packed with new features such as layout print, colour adjustment, postage stamp sized photo sticker printing.
- Image Optimise: Automatically adjusts brightness, tone and contrast to the perfect balance.
- Option of Print Finishes: Get the print finish you want without the hassle of switching photo paper - 4 types of finish available.
- Advanced ID photo function: With 43 sizes available, it can suit the ID needs of any individual or business.
- 100 year print life: A special lamination process puts a protective coating on photos to protect them from water and smudging.
- Colours: Available in black or white (exclusive to Target).

100  
YEARS  
PRINT

#### Long Lasting Prints

Canon printing technology produces bright, vibrant prints that if stored correctly in an album, will retain their colour and vibrancy for up to 100 years.

#### Inbuilt Filters

Adjust the brightness, smoothness of skin, and colours in your images for superb, natural-looking results.

#### Sharp Previews

2.7" Tilt-up LCD screen for vivid bright and sharp images to view and share your photos.

#### Red-eye Correction

Forget Photoshop, the SELPHY CP1200 has in-printer red-eye correction which restores eyes to their natural look without the need for a computer.

#### Click-Connect-Print

Print photos directly from compatible digital camera, smartphones and tablets.

#### Ultra Fast

Say goodbye to waiting for your photos to arrive. The SELPHY CP1200 can deliver lab-quality prints in as little as 47 seconds- as long as it takes for your Instagram photo to upload!

#### Print Anywhere

With the addition of the optional battery and charger (NB-CP2LH and CG-CP200), the SELPHY CP1200 becomes a truly portable printer-perfect for parties, holidays and even weddings.

#### Disclaimers:

<sup>1</sup> Print time is measured from the time when yellow printing begins and does not depend on the number of pixels of the printing image or the type of memory card.

<sup>2</sup> Requires optional paper cassette

<sup>3</sup> The aspect ratio for bordered prints depends on the original aspect ratio of the image. The values in the table are for images shot at the 4:3 aspect ratio with PowerShot series and IXY DIGITAL series models.

<sup>4</sup> Other memory cards (including adapters) can be used if they are the right shape and have compatible electronic specifications.

<sup>5</sup> Does not support wireless LAN

<sup>6</sup> Mac OS X (v10.9) are supported by means of downloading the exclusive driver from Canon homepage.
