3

YOU WILL NEED

- DAS Exhibition Canvases
- Tubes of Reeves Acrylic Paints
- A tube of Reeves Coarse Texture Gel
- A set of Reeves Acrylic Short Handle Brushes
- Paint tray
- Ruler and protractor as guides

INSTRUCTIONS

- 1 Mix up the colours for your background - I added white to all of mine to create a nice light colour palette. Then paint a coat all over each canvas, including the sides. Dry overnight.
- 2 Mix up the paints for your rainbows. I chose darker colours than the backgrounds, and mixed each with some Coarse Texture Gel to create a textured effect. Now paint on your designs. Start with some rainbows, using a protractor to help with the first arc. Then try

combinations of lines, arcs, circles and blocks of colour.

- 3 Display in your home on their own, in groups, or as a beautiful statement gallery wall.
