DENIM

JACKETS

Clever  
poppy.

Upcycle your favourite denim jacket with fabric paints, to give it a new lease on life!

### YOU WILL NEED

- Denim jacket
- A pencil or pen for outlining your pattern
- Reeves paintbrushes
- A mixture of fabric paints in the Jacquard Range. We used: Jacquard Textile - Yellow Ochre and Turquoise. And Jacquard Lumiere - Burnt Orange, Pearlescent Magenta and Brass.
- Jacquard Textile Colour in Super Opaque White

### INSTRUCTIONS

- 1** Draw your pattern onto the jacket using a coloured pencil or a pen. You can copy our design by eye, or freestyle your own with a mixture of similar shapes.
- 2** To help make your colours pop against the denim, do a

first coat with Jacquard Textile Colour in Super Opaque White. Start painting at the top and work towards the bottom, to prevent smudging. Use a larger paintbrush for the bigger areas, then a finer paintbrush for the slimmer areas and the edges of each shape. Leave this to dry for at least 24 hours, until the paint feels completely dry.

- 3** Now add a second coat with the coloured Jacquard paints, and also leave to dry.
- 4** Finally, heat set your creation by ironing on the reverse side of the denim for at least 30 seconds, using a denim-friendly temperature (without steam). Then allow to cool.

**Note:** There are other options to extend the washability of your design - see the paint labels for more info.
