

DIY NATURE PEOPLE

Clever poppy.

Grab the kids, gather some flowers and leaves, and have fun making your own unique nature people! This project is a wonderful way to connect with nature and get creative.

YOU WILL NEED

- Printer (or print the template via a Warehouse Stationery Copy Centre)
- Plain paper or card
- Flowers and leaves
- Felts, crayons and/or coloured pencils
- Optional: Glue or clear tape

INSTRUCTIONS

1 Download and print the 'Nature People' template onto plain paper (or card if you'd like a more sturdy template). Then bring it to life by colouring in your person. **Tip:** if you don't have a printer, you can freehand draw or trace your person onto a piece of paper or card.

2 Arrange your flowers and leaves on the template. Have fun creating hats, hair, outfits, and props with the different shapes and textures.

3 Once your creation is ready, snap a pic, then sweep it off and reuse the template to make another nature person!

Tip: If you wish to keep your nature people creations, you can use some glue or clear tape to secure the foliage to the template. In this case, you may wish to line your foliage with paper towels and then press it between some heavy books, to help flatten and dry it out in advance.
