## DIY DECORATIVE POTS

Clever  
poppy.

Try painting some mini Terracotta Pots, to make a wonderful gift for a loved one, or a sweet display for your home. This is such an easy and creative project, and you can even get the kids involved.

3

### YOU WILL NEED

- Terracotta pots
- Reeves acrylic paint
- Reeves brushes

### INSTRUCTIONS

- 1 Choose a design, then brush it onto the pot in white. Try using the paintbrush on an angle if you want to get a clean edge. Let that paint dry.
- 2 If you want to add in another colour, paint that over the white for the second coat. Or do another coat of white.

- 3 Wait for the paint to dry, then they're ready to go.

**TIP:** We suggest using these as decorative pots with artificial plants – this is super easy care and looks gorgeous. If you do choose to fill these painted pots with real plants, just note moisture may wear off the paint over time.
