CAUTION: We recommend that all contents stored in or on this item of furniture be removed before shifting it. The Manufacturer will not be held liable for damage caused when furniture is shifted without first removing the contents. Do not drag the furniture while shifting.

Surface Care Instructions

A little care and attention will extend the life and good looks of your furniture. Take care when using materials which might spill or sharp or abrasive objects which could damage the surface of your furniture.

Normal Cleaning

For normal dusting use a soft, dry, clean cloth.

Glass Cleaning For Frosted Glass

Do not use glass cleaner or solvent based cleaners on the surface of the glass that has the frosting effect.

Spills and Soiling

Most spills and soiling maybe removed with a non-abrasive multi surface household cleaner. Apply a small amount onto the surface then remove with a soft, clean cloth.

NB: It is recommended that your multi-surface cleaner is first tested on an unseen patch prior to cleaning.

Marks, Scratches and Surface damages

As with all furniture, these can never be properly repaired.

CAUTION

Under no circumstances must any form of abrasive be used as this will damage the surface.

Do not use solvents, solvent based cleaners, scouring pads, steel wool, furniture wax or scrubbing brushes.

As with all indoor furniture, this unit should not be exposed to direct sunlight, extreme temperatures or moisture, as this can result in serious irreparable damage.

NB: The sooner a stain or spill is cleaned, the easier it will be to remove.

PLEASE KEEP THIS INFORMATION FOR FUTURE REFERENCE.
