

personalised photo box

Surprise your loved one with a box full of memories. This is a great personalised gift for a friend or a family member and is super easy to make with the kids. We hope you love making it as much as we did.

You'll need the following supplies, from Warehouse Stationery:

- At least 7 photos, printed square 10cm x 10cm
- Uniti Craft Box (approx 9cm square)
- A3 Cardstock (approx 225gsm)
- Glue Stick
- Ribbon
- Pencil, ruler and scissors

FOLLOW THESE STEPS

- 1 Choose and print at least 7 square photos with a border (10cm x 10cm size).
- 2 Cut an A3 piece of card into 2 long pieces, sized to fit the width of your box (approx. 9cm for the Uniti craft box).
- 3 Measure out and mark each piece into squares (9cm x 9cm). Each length of card will have 4 squares plus a small tab of leftover card at the end. Crease into an accordion fold.
- 4 Cut the tab off one piece of card, then stick the 2 pieces of card together using the other tab.
- 5 Test the size of the photos against each square and trim down if needed (so that they fit flush).
- 6 Lay the card out flat and stick a photo to each square, except the first and last. Leave to dry. Then check your card folds nicely into an accordion style, and trim any overlaps where needed.
- 7 Stick the bottom square to the inside base of the box. Then stick the top square to the underside of the lid. Leave to dry.
- 8 Now you can close the box, with the photos all tucked up inside, ready to pop out. Stick a photo to the top then wrap with ribbon and it's ready to go!
