

personalised washi tape wall

Create this effective washi tape wall, guaranteed to transform any room in your house. Great for kids and teenagers to add colour and personality to their walls, but also great in an adults space with a more structured approach. Create it any way you choose.

You'll need the following supplies, from Warehouse Stationery:

- A selection of printed photos
- Washi Tape
- Scissors (optional)

Before you start, you may want to prepare the wall by removing any dust and grime (this can make it hard for the tape to stick) and ensuring the surface is nice and dry.

- 1 Gather a selection of your favourite photos and washi tapes. You can use a mixture of sizes and orientations, but it also looks great with 6"x4" landscape photos.
- 2 Now it's just a case of taping the photos to the wall, using the washi tape to double as the sticky tape and a way to add eye catching colour. You can use 4 pieces of tape to create a full frame on each photo. Or have fun creating different designs!

3 Here's some tips:

- You can plan the layout first on a flat surface, before you tape the photos to the wall.
- Pick a spot to start (e.g. the centre or a corner of the display), tape on your first photo, and work your way out from there.
- You can cut your washi tape or rip it, depending on the look you want.
- You can hold the photo straight while any little helpers tape it down.

- Make sure you pull the tape straight before pressing it down, in order to get a smooth line without bubbles.
 - Try not to overhandle the sticky part of the tape, as this may affect how well it sticks.
- 4 Keep sticking your photos down, until you've filled the desired area with a colourful photo display! Don't worry if your photos aren't positioned perfectly straight, they'll still look fantastic overall.

Step back and admire the fun, memory-filled photo display you've just created!
